Product Description:

The Enook Battery Pack is highly customizable, with voltage and capacity options available to suit your needs. Whether you need a 48v, 60v, or 72v battery pack, this product has you covered. The 40ah capacity ensures long-lasting power, making it the perfect choice for extended rides or commutes.

Measuring 255*165*215mm, the Enook Battery Pack is compact and easy to install. Despite its small size, this battery pack is powerful and efficient, providing reliable power to your electric vehicle at all times. The operating temperature of -10 ~+50°C ensures that this battery pack can be used in a variety of conditions without any issues.

When it comes to electric bike battery packs, the Enook Battery Pack is one of the best options available on the market. Its high capacity, customizable voltage and capacity, and compact size make it the perfect choice for electric bike enthusiasts and professionals alike. Whether you are looking for a reliable battery pack for your daily commute or for extended rides, the Enook Battery Pack is the ideal choice for you.

Brand Name	enook
Model Number	Lifepo4 Lithium Battery Packs
Battery Size	18650
Place of Origin	China
Weight	Customized
The charging ratio	50C
The discharge rate	100
Nominal Voltage	12V
OEM/ODM	Accepatable
Nominal Capacity	5Ah
Color	Black
Туре	Li-lon/lithium/lifepo4
Brand	OEM Customized
Weight	0.9KG
Features	High Power Density
Keywords	Lithium Ion /lifepo4 Battery Pack
Apllication	E-motorcycle

Features:

Product Name: Lithium Ion Battery Pack

Net weight: 9KG

Cycle life: 3000-6000 Cycles @ DOD80%/25degree/0.5C

Working altitude: ≤2500m Size: 255*165*215mm

Cooling method: Natural Cooling 48v 60v 72v 40ah battery pack 48v 60v 72v 40ah battery pack 48v 60v 72v 40ah battery pack

50Ah/100Ah/200Ah

Applications:

The Enook Battery Pack is suitable for various occasions and scenarios, including:

- 1. Electric Vehicles: The battery pack is an ideal choice for electric vehicles such as e-bikes, e-scooters, and e-cars. It provides a high power output and has a long cycle life, making it an excellent option for those who require long-lasting and reliable batteries. The battery pack can be customized to suit the voltage and capacity requirements of different vehicles, including 48v 60v 72v 40ah battery pack.
- 2. Solar Energy Systems: The Enook Battery Pack is also suitable for solar energy systems. It can store the energy produced by solar panels during the day and release it when required. The battery pack is an excellent choice for off-grid systems that require a reliable and long-lasting power source.
- 3. Emergency Power Supply: The Enook Battery Pack is an ideal emergency power supply for homes and offices. It can provide backup power during power outages and can be used to power essential appliances such as lights, fans, and refrigerators.
- **4. Marine Applications:** The Enook Battery Pack is also suitable for marine applications such as boats and yachts. It can provide a reliable and long-lasting power supply for various equipment and appliances on board.
- Enook Battery Pack has a long cycle life of 3000-6000 cycles @ DOD80%/25degree/0.5C and can operate in temperatures ranging from -10 ~+50°C. The standard voltage of the battery pack is 12.8V, but it can be customized to suit the needs of different applications. The product is available for purchase with different payment terms such as TT PAYPAL, and OEM/ODM orders are also acceptable.

Customization:

PRODUCT COMPOSITION

Support and Services:

your purchase. Our team of experts is available to answer any questions you may have regarding the installation, operation, and maintenance of the battery pack. In addition, we offer repair and replacement services in the unlikely event that your battery pack experiences any issues. Our goal is to provide you with peace of mind and a hassle-free experience with our product.

Packing and Shipping:

Product Packaging:

The Lithium Ion Battery Pack will be securely packed in a box to prevent any damage during shipping.

The box will be labeled with the product name, specifications, and handling instructions.

Each box will also contain a user manual and safety instructions for handling and usage. Shipping:

The Lithium Ion Battery Pack will be shipped via a reliable and secure courier service.

Shipping charges will be calculated based on the destination and weight of the package.

Customers will receive a tracking number to track their package during transit.

Delivery times may vary depending on the destination and shipping method selected.
