Applications:

The enook Golf Cart Battery is designed to be used specifically in golf carts. It has a charge voltage of 58.4V and comes in customized sizes. The weight of the battery ranges from approximately 4.0kg to 40.0kg, depending on the size of the battery pack required. The 72v battery pack is one of the most popular options for golf cart owners as it provides enough power for a long day of golfing. The enook Golf Cart Battery is perfect for golfers who are looking for a reliable and efficient power source for their golf cart. It is ideal for golfers who like to play for long hours without worrying about running out of power. The Lithium Ion Golf Cart Battery is also great for golf

courses as it reduces the need for frequent battery replacements and maintenance.

The enook Golf Cart Battery is also a great option for those who are looking for an environmentally friendly and efficient power source. The Lifepo4 Battery Golf Cart Battery is designed to be rechargeable and has a high energy density, which means that it can store a lot of energy in a small space. This makes it an excellent choice for those who are looking for a more eco-friendly and cost-effective power source for their golf cart.

The enook Golf Cart Battery is currently in stock and comes with a 10-year warranty, which guarantees its reliability and durability. Whether you are a professional golfer or just someone who enjoys playing a few rounds on the weekend, the enook Golf Cart Battery is the perfect power source for your golf cart.
